Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem-solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Template

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

⌚ 10 minutes to prepare
🕒 1 hour to collaborate
👤 2-8 people recommended

●

Before you collaborate

Before starting the brainstorming session, each team member reviewed the product problem statement, explored the product placement dataset, and identified key factors affecting product placement, such as pricing, promotions, customer behavior, and competitor influence. Team members came prepared with ideas and suggestions for discussion.

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

⌚ 5 minutes

PROBLEM

How might we identify the best product placement strategy to increase sales, improve customer engagement, and maximize business profit.

Key rules of brainstorming

To run a smooth and productive session

🗣️ Stay in topic.

💡 Encourage wild ideas.

⏸️ Defer judgment.

👂 Listen to others.

🗣️ Go for volume.

🎨 If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

2

Brainstorm
Write down any ideas that come to mind that address your problem statement.

10 minutes

Person 1

place frequently purchased products at eye level.

Group related products together.

Display discounts clearly.

Person 2

Increase sales by optimizing shelf space.

Reduce slow-moving inventory.

Arrange products based on demand.

Person 3

use attractive promotional displays.

Bundle complementary products.

Create eye-catching signage.

Person 4

Analyze historical sales data.

Compare sales by shelf position.

Predict high-performing placements.

Person 5

Maximize overall profit.

Increase repeat purchases.

Make data-driven placement decisions.

Tip

You can select a sticky note and hit the pencil (switch to sketch) icon to start drawing.

3

Group ideas
Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

Group 1: Product Placement
Shelf Position Analysis
Eye-Level Product Placement
Category-Based Arrangement
Store Layout Optimization
Product Visibility

Group 2: Customer Behavior
Customer Buying Patterns
Purchase Frequency
Customer Preferences
Shopping Habits
Customer Satisfaction

Group 3: Sales & Performance
Sales Data Analysis
Best-Selling Products
Seasonal Sales Trends
Revenue Growth
Sales Comparison

Group 4: Marketing Strategy

Sales Reports
Data Visualization
Predictive Analysis
Placement Recommendations

Tip

Ask customers to help to filter notes to make it easier to find, divide, organize, and categorize relevant ideas as themes across your store.

Step-3: Idea Prioritization

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

⌚ 20 minutes

TIP

Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the H key on the keyboard.
