

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	03 July 2026
Team ID	
Project Name	Strategic product placement analysis
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Data Collection	Collect the product placement dataset from Kaggle. Import the dataset into Tableau.
FR-2	Data Preparation	Clean missing values. Remove duplicate records. Filter and transform the dataset.
FR-3	Data Analysis	Analyse product categories. Compare sales with competitor pricing. Evaluate the impact of promotions on sales.
FR-4	Data Visualization	Create Bar Charts. Create Line Charts. Create Scatter Plots. Create Pie Charts.
FR-5	Dashboard Development	Design an interactive Tableau dashboard. Add filters and KPI indicators. Display key business insights.
FR-6	Report & Story Generation	Create a Tableau Story. Generate reports and summarize strategic product placement insights. Prepare the final dashboard for presentation.

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	The dashboard should be easy to understand and navigate for all users.
NFR-2	Security	Project data should be protected from unauthorized access and Modification
NFR-3	Reliability	The dashboard should be protected from unauthorized access and Modification.
NFR-4	Performance	Tableau dashboards should load quickly and respond smoothly to user interaction.
NFR-5	Availability	The dashboard and project files should be available whenever users need them.
NFR-6	Scalability	The system should support larger datasets and additional visualization in the future.
